

News and Updates

Successful Completion of Pre-Pilot Activities

We are excited to share the success of two key pre-pilot initiatives that mark significant progress in our journey toward the major pilots planned for 2025.

1st Pre-Pilot: Train-the-Trainers:

Hosted online by CERTH, took place from October 14 to 18, 2024. During this intensive training week, 26 trainees (two from each partner organization) were certified as trainers. These certified trainers will play a pivotal role in the upcoming learners' pre-pilot in Timisoara and the major pilot sessions scheduled for next year.

2nd Pre-Pilot: Learners:

Organized by ISIM, was held in a hybrid format from November 4 to 8, 2024. This session saw 25 learners (two per partner) actively participating in course activities, with 15 attending in person and 10 joining remotely via MS Teams. This flexible approach ensured accessibility and engagement across locations.

Both pre-pilot activities have set a strong foundation for knowledge transfer and skill-building, preparing us for impactful implementation in 2025.

Stay tuned for more updates as we continue to drive innovation and collaboration!

PreMETS Project Featured at the 15th International eLearning Conference 2024

Participants experienced the future of industrial maintenance at the INTELIFORM production site, where advanced predictive maintenance strategies were piloted.

The visit offered an up-close look at cutting-edge practices in predictive maintenance, demonstrated in a real-world industrial setting. Attendees witnessed how innovative technologies and techniques transformed maintenance workflows, improved efficiency, and minimized downtime.

Stay tuned for updates on the pilot's outcomes and the valuable insights it provided for modernizing industrial operations!

Manufacturing Day 2024 at ViennaUP'24

EIT Manufacturing East have showcased PreMETS project during their biggest annual event 'Manufacturing Day.' The Manufacturing Day 2024 is the leading event for the manufacturing industry during ViennaUP'24 and brings together international startup and industry representatives, renowned experts and investors alike.

Transnational Project Meeting (4th TPM) - in Timisoara, Romania

As we look back on the achievements of the 4th PreMETS Consortium meeting held in Timișoara, we are inspired by the promising opportunities that lie ahead.

This event served as a platform to cultivate meaningful connections and forge strategic partnerships, laying the foundation for future collaborations and advancements in the field of predictive maintenance. Notably, the meeting marked the successful implementation of two pilot courses tailored for trainers and learners.

Through the exchange of experiences, the dissemination of best practices, and the sharing of practical insights, participants made significant contributions to the continued evolution of maintenance strategies and technologies.
